Leon said, when I ask him would he tell his mother the true story about how you help rape Sabine and how she was killed just like you have told me when I bring him in here..? He said I, I already told her all about it, and she told me not to say anything about it, when I came in here, she said for me to say I was home asleep when it happen because she was going to say that I was home in bed asleep when it happen and I better say the same thing, but I didn't. I've told the truth about it to you.
